### APPENDIX 1: STUDENTS' INTERVIEW: APRIL

Thank you for talking to me. The reason of this conversation is that you could share with me your experiences in your English class. What you tell me will help me to tell teachers of English in other places about what children think about learning English at school. However, you are not forced to share anything that you do not feel comfortable with, so please feel free to talk only if you want to do so. At any time during our conversation, **you can decide to stop talking to me**, without having to give a reason. I will record our conversations so that I can remember what we said, but these recording will be stored in safe place with no access to your personal information. Thus, **I will NOT share with your teacher, your parents or anybody in the school what you say here**. There is no right or wrong answers; therefore, the success of our conversation depends on that your answers are according to what you really believe.
