

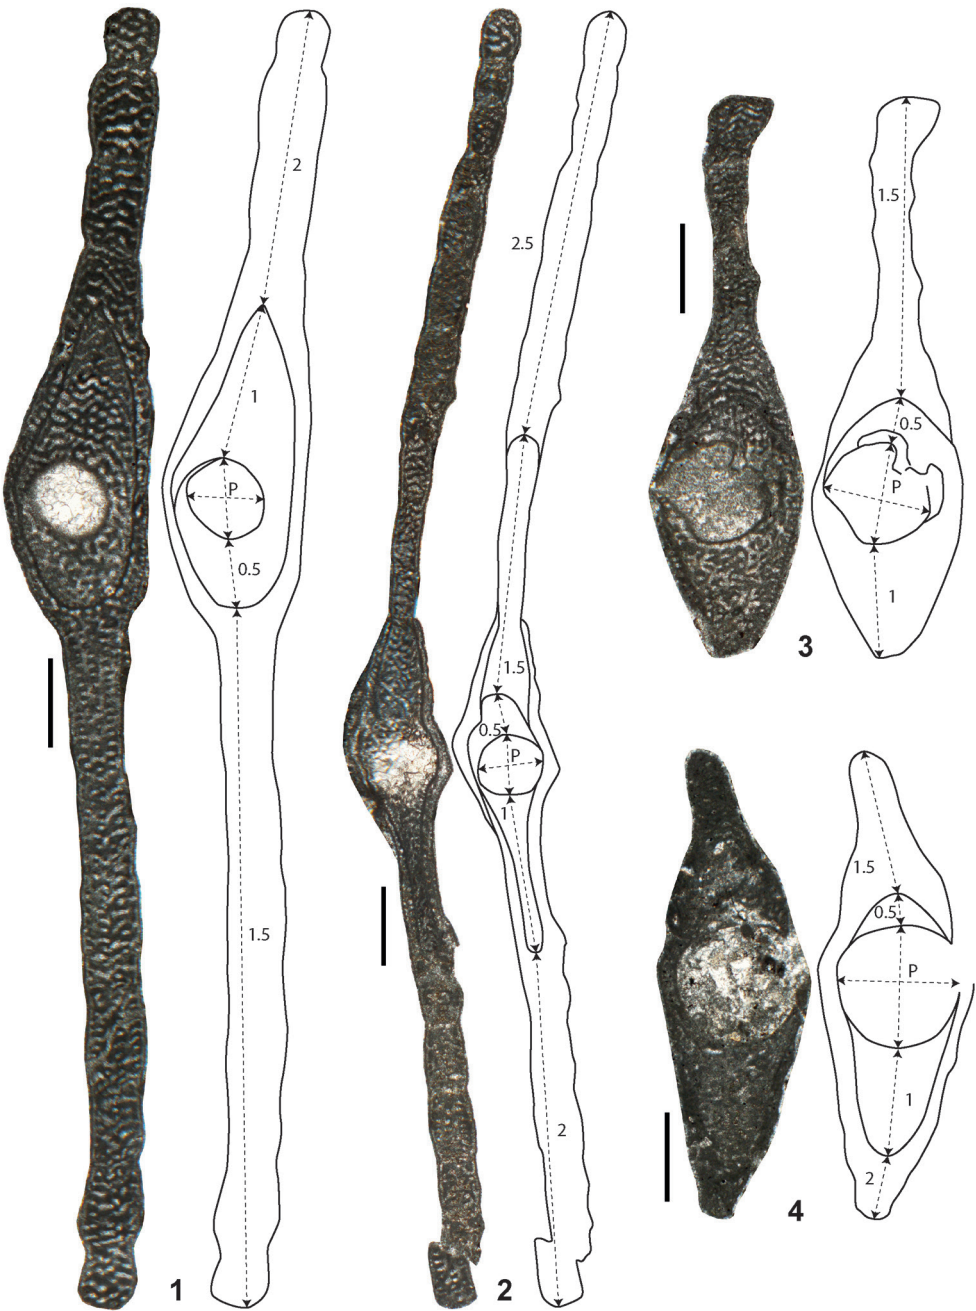

Plate 1

1–4. *Yaberinella panamensis*; Axial sections of the specimens 1 to 4 (Table 1). Scale bar is 0.5 mm.

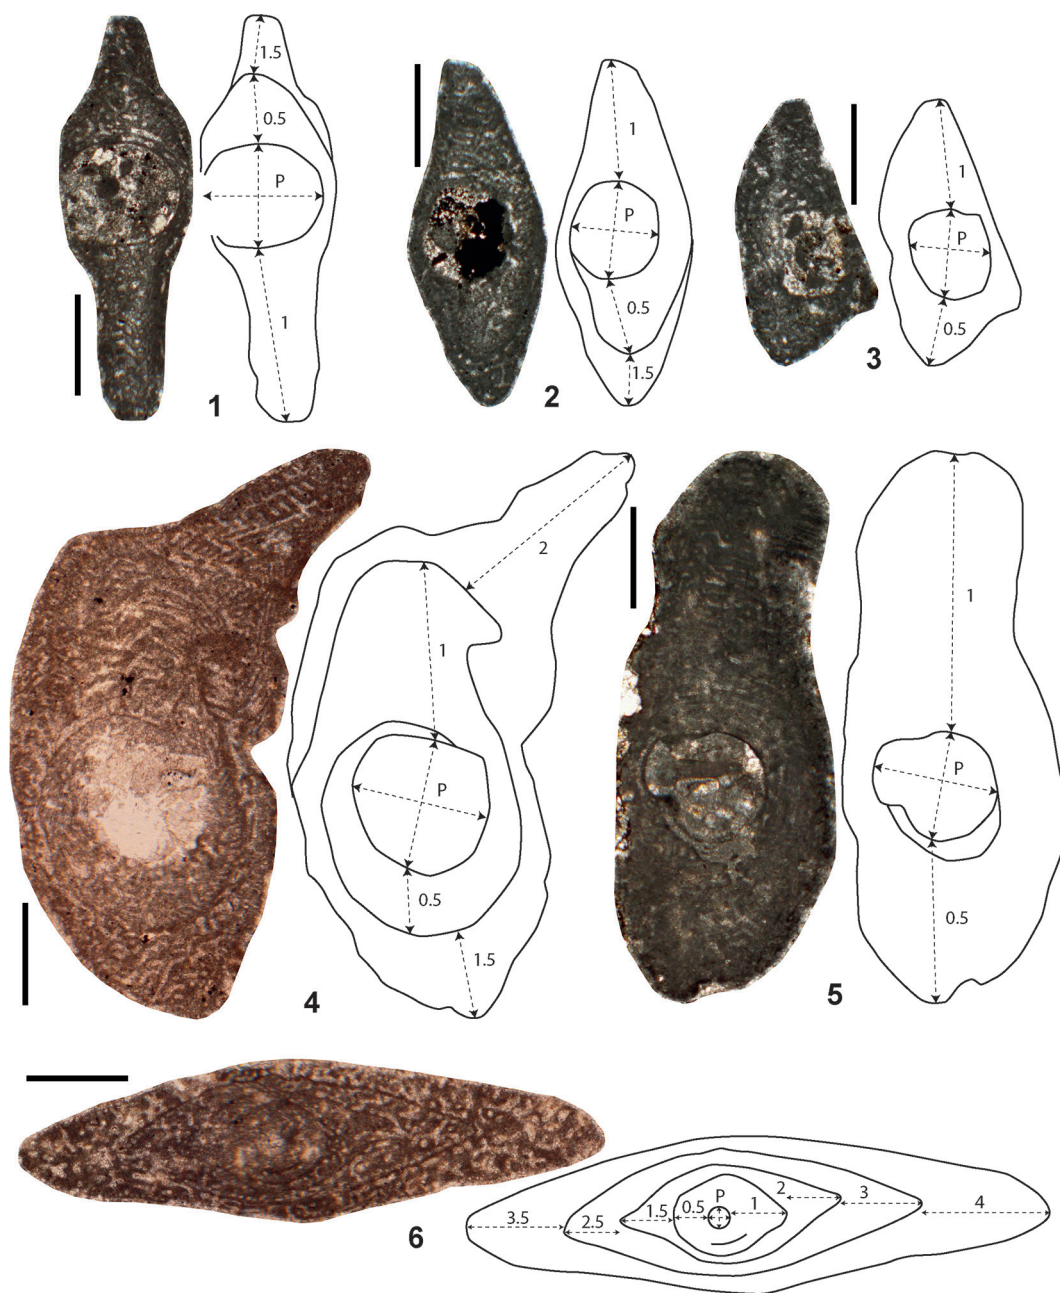

Plate 2

1–5. *Yaberinella panamensis*; Axial and oblique sections of specimens 5 to 9 (Table 1). Scale bar is 0.5 mm.
 6. *Yaberinella hottingeri*; Axial section of the unique specimen observed in thin section CPII3-3. Scale bar is 0.5 mm.

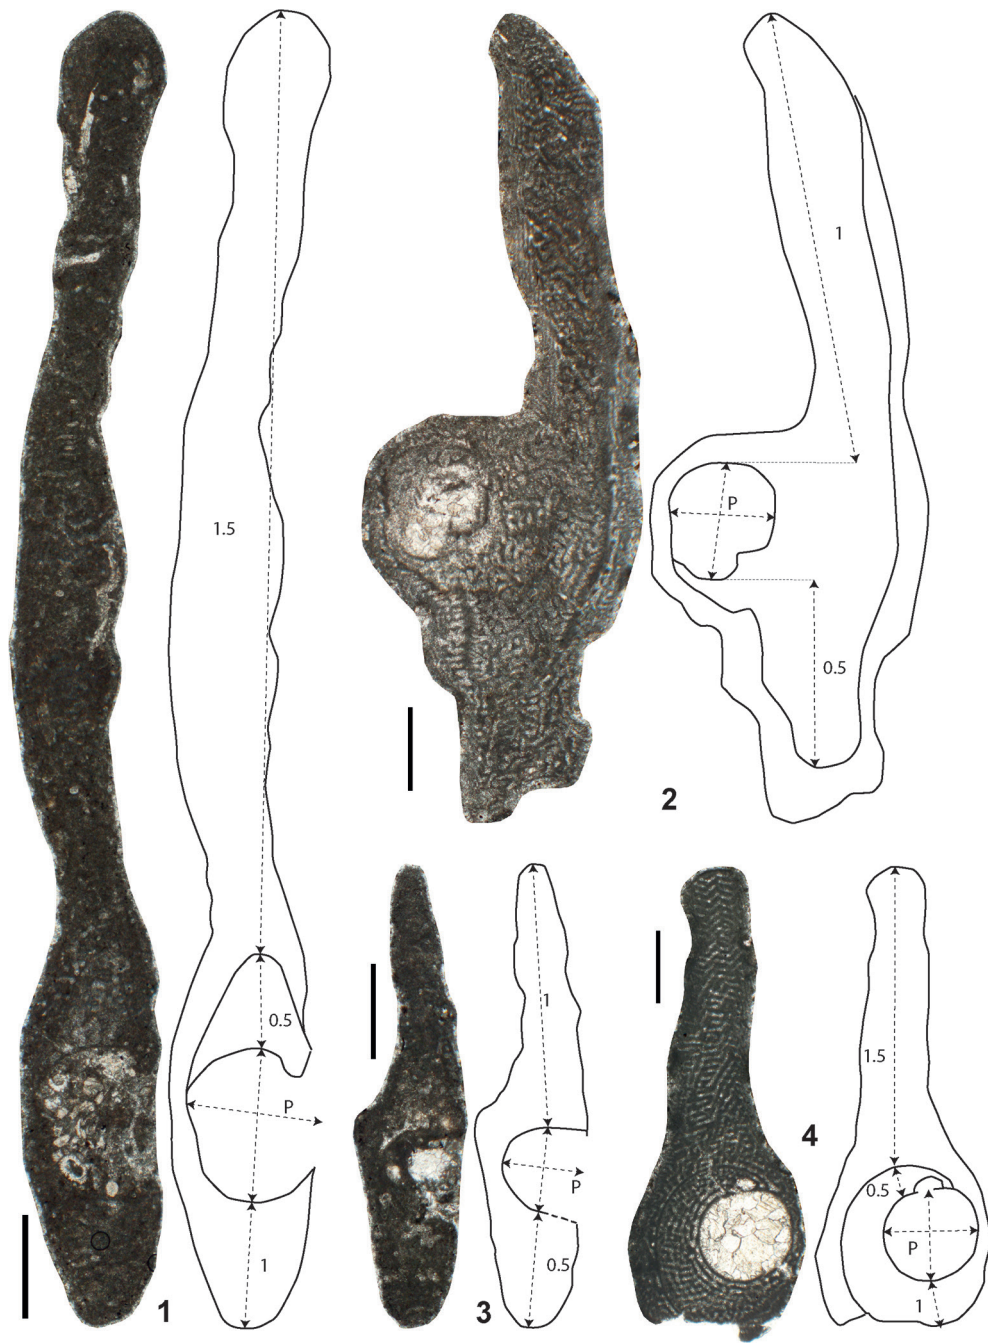

Plate 3

1–4. *Yaberinella panamensis*; Axial and oblique sections of specimens 10 to 13 (Table 1). Specimens 10 and 12 show a broken proloculus. Scale bar is 0.5 mm.

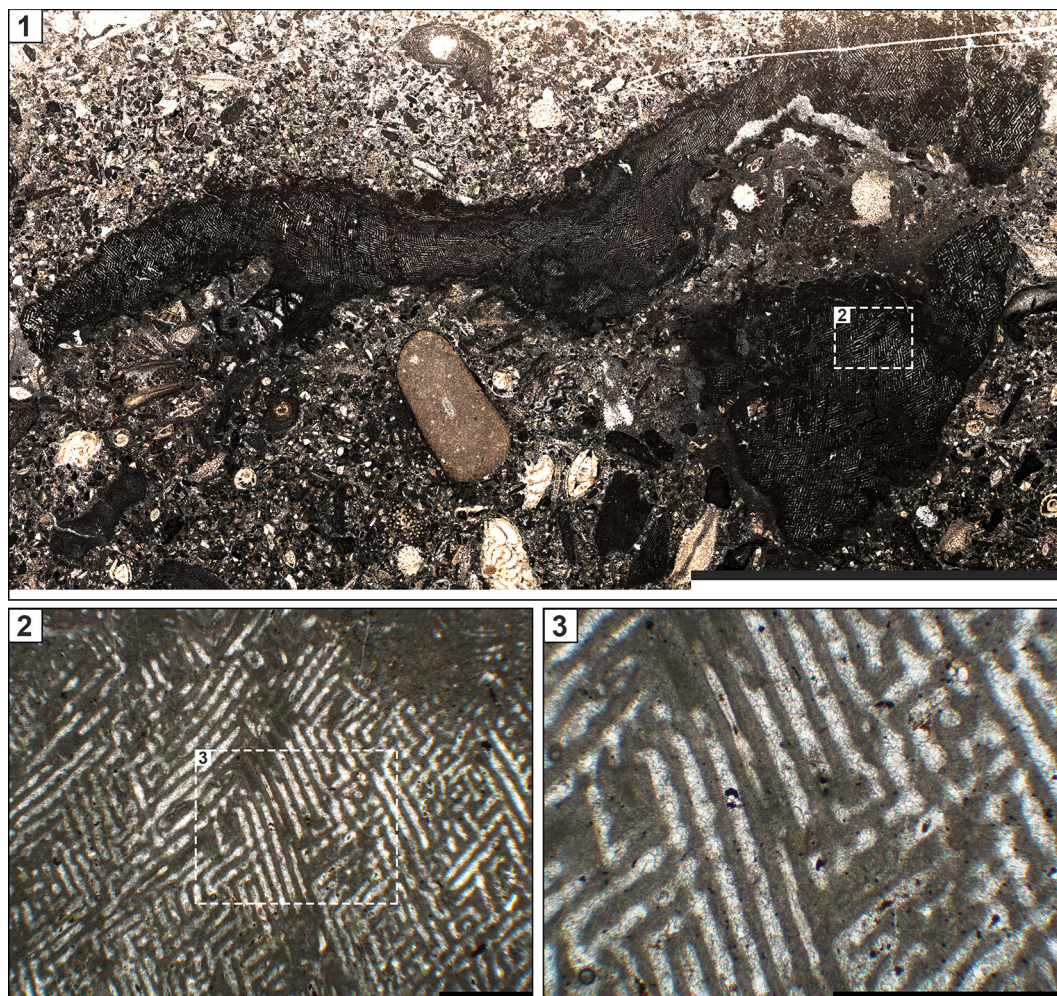

Plate 4

1–3. *Yaberinella panamensis*; 1. Oblique section of a particularly large specimen (2.7 cm) showing the structure of the endoskeleton. Scale bar is 1 cm. 2. Zoom of white dashed line box in 1. Note the well-preserved criss-cross structure of the endoskeleton. Scale bar is 0.5 mm. 3. Zoom of white dashed line box in 2. Scale bar is 0.5 mm.
